

Introducing “Limiting Omnipotence” - Consequences of Calvinism

by David Dunlap

What Others Are Saying:

David Dunlap has thoroughly explored the tenets of Hyper-Calvinism as bolstered by Covenant Theology from both an historical and scriptural perspective. His frequent use of quotes from reputable sources gives both validity and completeness to his work. When all “boiled down” his analysis sufficiently demonstrates that Calvinism, in its raw form, is a “fear based” and “works based” dogma that actually restricts God in His attributes and character. The writing style is thought provoking, but gracious and respectful. He does not resort to demeaning tactics or slander those with opposing views, but simply allows his arguments to rest on the inerrancy of Scripture.

I believe this work makes a valuable contribution to one's library. I am conservative and careful as to what books I keep on my shelf but this one when published, will certainly have a place there. In these days it will provide a handy reference work for those who desire to learn more about Calvinism. Thank you for it and for the privilege of being of some small help in its production.

Colin Anderson, Stratford, Ontario, Canada

David Dunlap has skillfully exposed many of the errors of Reformed theology in a clear, and concise manner. His desire in dealing with these important issues is only to ask the most important question : “What saith the Scripture?” (Rom. 4:3). Especially helpful is his chapter on the “vicarious law keeping” view held by many today. May the Lord deal with each of our hearts that we might learn, unlearn, and relearn!

A Study of Crucial Issues in Calvinist and Dispensational Theology

Does theology have consequences? The answer must be a resounding, Yes! The theological schools of Calvinism and Dispensationalism both influence our understanding of important doctrines in the Bible. No Christian can afford to neglect the impact these doctrinal positions have had upon the church.

This book contrasts crucial issues in the Calvinist and Dispensational debate today. Its major focus is the consequences of Calvinism. *Limiting Omnipotence* argues that Calvinism is not limited to the area of election alone, but touches nearly every aspect of Christian life and doctrine.

Limiting Omnipotence discusses these issues in a language that any layman can understand, quoting freely from the Scripture and from the writings of evangelical leaders, both past and present. Topics that are discussed are:

- Is God the author of sin?
- “One-naturism”
- What does the Bible teach about election?
- The sovereignty of God
- Dispensationalism and antinomianism
